

Dear **WALDLÄUFER**-customer,

thank you for purchasing an **Ortho Tritt**-product and we trust it meets with your requirements.

For our footwear we always use the ideal material to offer fit and comfort, but in combination with body heat and skin moisture it can react and the colour may run during wear. This is not a defect but a characteristic of all dyed materials.

Care advice: **Please don't use shoe-polish or spray, only wipe with a damp cloth.**

If you have any further questions or suggestions, please do not hesitate to contact us.

... soft and extremely flexible!

Ortho Tritt[®]
WALDLÄUFER

The exceptional advantage of this product is the extremely flexible upper-material. Especially suitable for the **sensitive and problematic foot**:

- **swollen feet**
- **Hallux Valgus**
- **deformed toes**

Experience the benefits of **Ortho Tritt** and be convinced by the special flexibility without any feeling of pressure.

Upper material:

stretch material with padding, Nappa-Stretch, Textil-Stretch or Suede-Stretch

Lining/Microfibre:

antibacterial, free of heavy-metal, scrub resistant, non-fading, high absorption of moisture and extremely flexible
