

Dear **WALDLÄUFER**-customer,

thank you for purchasing a *dynamic*[®]-product and we trust it meets with your requirements.

Footwear made of natural material, i.e. leather is the ideal material to offer fit and comfort. But due to these natural qualities combined with body heat and skin moisture it can react and the colour can run. This is not a defect but a characteristic of natural material.

If you have any further questions or suggestions, please do not hesitate to contact us.

... we dress up your feet!

WALDLÄUFER
dynamic[®]
